Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Poe, Jr. et al. (4715456).

Poe, Jr. et al. disclose slips comprising: a slips bowl 54 seatable in a table; pipe-gripping slips 52 disposed in the slip bowl for radial movement; a moving means 58a, 58b, 64 for moving the slips radially into or out of contact of a tubular 70 located within the bowl at substantially ninety degrees to the tubular; a sloping external surface 64 on the slips; and the moving means being a wedge 62 which contacts the sloping surface of the slips and moves the wedge over the sloping surface causing radial movement of the slips.

***Allowable Subject Matter***

Claims 16-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bouligny, Jr. (6089338) and Adams et al., Fig. 25, (6644413) present radially movable slips.
